BATTERY CASE STORAGE – uncomplicated protection from battery fires

High-performance batteries for power tools or e-bikes can become a fire hazard. More and more companies are therefore relying on our sturdy battery fire-rated boxes for fire protection. They are uncomplicated and flexible in handling, thus avoiding user errors. Simply insert the battery, close the box and rely on the certified safety – reliable and effective.

Inside dimensions L × W × H	Outside dimensions L × W × H	Usable space L × W × H	Number of handles	Material	Stacking corners	Weight kg	Order no.
550 × 350 × 220	600 × 400 × 240	450 × 300 × 150	3	Aluminium	No	9	40584

Areas of application:

The Battery Case Storage is particularly suitable for storing power tool batteries in industrial, commercial and domestic premises. It is also suitable for storing bicycle batteries in retail and domestic environments. Possibly for domestic use and by skilled workers as per the relevant trade regulation (ADR 1.1.3.1 c). We recommend our Akku Safe transport boxes for the regulation-compliant transport of batteries.
