

Sticker mat

The sticky mat consists of 30 thin plastic sheets that are coated with glue. The glue effectively captures all dirt and dust from shoes and carts that pass by. When the sheet is full of dirt, you just tear it off and throw it away. The sheets are numbered so that you know in good time when they are starting to run out.

The mat is developed for environments where there is a lot of dirt and dust and where you want to keep everything clean and tidy, such as entrances, passages and corridors.

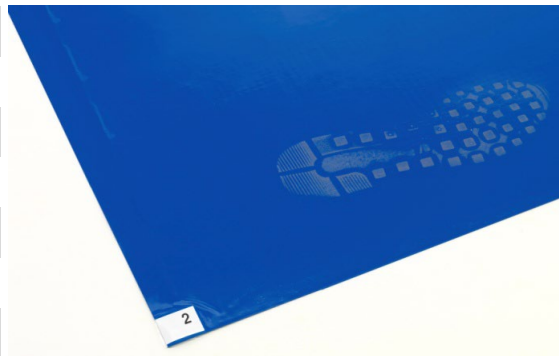

The sticky mat is delivered in a package with 4 blocks containing 30 sheets each.

Part nr.	Name	Size (m)	Color
9930001	Sticky mat	0,45 x 1,15	White
9930070	Sticky mat	0,45 x 1,15	Blue
