

SECUMAX 145

YOUR WORK HAS NEVER BEEN SO EASY.

THE SAFER WAY TO CUT.

martor

SECUMAX 145

NO. 145001

Original size

2 in 1 blade head

The blade head provides two functions: cutting and piercing. Use the knife's noses to the left and right of the blade to effortlessly pierce materials (e.g. card and film), and the blade head's corners for packing tape.

Concealed blade

With a 4 mm blade access, the blade is highly concealed. Out of reach for fingers but accessible to the materials to be cut. And contents under the cutting surface will also be kept safe from contact with the cutting edge.

Flat and robust design

It is not just the handle that has an extremely flat design – the cutting channel too measures just 1.5 mm, requiring less effort for cutting. The tool also retains its strength – thanks to a 0.5 mm blade and high-quality plastic.

Light and easy

The SECUMAX 145 is so lightweight that users will hardly notice it. This is aided by the comfortably rounded handle at just 4 mm wide, and thumbs will intuitively find their place at the ergonomically designed grooves.

Clever guide surfaces

A tip from us on cutting card: hold the blade at an angle to improve cutting! It is no accident that the guide surfaces are located at the front of the knife – they aid cutting at the most effective angle.

Compact design. Powerful performance.

The SECUMAX 145 is our clever, compact safety knife for routine cutting tasks. The glass-fibre reinforced plastic handle and 0.5 mm strong blade gives it remarkable robustness. At just 12 g it is also extremely light. The disposable cutting tool easily copes with single-layer card-board, film and packing tape, for example. The two cutting edges are safely concealed to protect fingers.

PRODUCT FEATURES

Technical features

	Maximum safety		Disposable knife
	Abrasion resistant		Ergonomic
	2-times usable blade		Cutting depth
	For right and left hander		Lanyard hole
	Printable for promotional purposes
