# ETRA UNIVERSAL CLEANER 750 ML

Etra Universal Cleaner is a ready-to-use cleaning agent that does not require rinsing. It effectively cleans all water-resistant surfaces. Dries quickly without leaving any traces. Etra Universal Cleaner removes dirt and stains effectively. It has good cleaning power on various flat surfaces, and for example steel. It is ideal for various locations such as cafes, restaurants, kitchens, shops, gyms, hotels, educational institutions and many others.

The product is Ecolabel certified, so you can be sure that the entire supply chain from raw materials to manufacturing, product use and packaging disposal has been carefully considered to be as environmentally friendly as possible. A single package embodies numerous sustainable choices.

### Appearance and scent

Colorless, fragrance-free liquid

### Applications

For routine cleaning of all hard surfaces, e.g., painted and waxed surfaces, steel, plexiglass, glass and mirrors. Effective removal of greasy stains. Intended for professional use.

### Instructions for use and dosage

Spray Etra Universal Cleaner directly onto a microfiber cloth or the surface. Wipe the surface clean and dry. No rinsing is required. After cleaning surfaces that are in contact with food, wipe them with a microfiber cloth moistened with clean water.

### Product pH

8, slightly alkaline

### Storage

Store in a warm place. Shelf life 3 years from date of manufacture, if stored correctly.

### Packaging & environment

Used caps and spray heads are not recyclable. Packaging can also be recycled after use: we recommend that empty rinsed bottles be recycled and reused as material. They can also be reused for energy. Transport packaging is recyclable.

### Country of manufacture

Estonia

### Item code

10340012039 750 ML EAN 6417925021548
