

The anti-slip mat is commonly used in commercial kitchens, logistics centres, warehouses, and industrial environments.

SIGNE

ANTI-SLIP MAT

- ✓ Durable and chemical-resistant.
- ✓ High slip resistance.
- ✓ Ergonomic solution.

ERGONOMIC ANTI-SLIP

A flexible and highly durable anti-slip mat with a grit-coated surface that provides excellent slip resistance. Suitable for both indoor and outdoor use, and specifically developed to prevent slipping in oily and wet environments. The mat is also ideal for industrial settings in front of machinery, at packaging stations, and in other areas where additional safety is required.

TWO BENEFITS IN ONE

The mat is chemical-resistant, sound-insulating, and easy to clean. With chamfered edges, it remains stable on the floor without curling. An effective solution that contributes to a safer and more ergonomic workplace.

TECHNICAL INFO

Product name	Safestep SIGNE
Article no	See www.safestep.fi
Dimensions	910x1510mm
Thickness	7 mm
Weight	10kg
Material	Rubber, aluminium oxide
