

Cubitron™ 3
Performance Abrasives

Produce more. With less.

3M™ Cubitron™ 3 Fibre Discs, 60+/80+

Ideal for heavy grinding applications.

By using long-lasting, fast-cutting 3M™ Cubitron™ 3 Performance Abrasives, you can minimize abrasive changeover to save money over time. Stiff fibre backing and a strong resin bond provide durability and tear-resistance for heavy grinding applications from beveling, weld grinding, surface grinding to deburring, and flame cut smoothing. In each application the product grinds more freely and at lower temperatures, helping to reduce job times, operator fatigue and minimize rework.

**More total
material removed**

Less operator fatigue

Faster cut rate

**Less vibration
exposure**

Cool cutting

**Sustainability
at the core**
