- Compact 14-piece screwdriving tool set for bicycle applications, also for mobile use
- Practical range for DIY assembly work and repairs
- Suitable tools for the most common bolt profiles on road bikes, mountain bikes and e-bikes
- Robust, surface-friendly, compact textile folding bag
- Set including Mini bit ratchet, extension and two tyre levers with additional functions

Bicycle repair shops and passionate cyclists love screwdriving on a bicycle. With their Bicycle Set 1, the screwdriving tool specialist Wera offers an assortment of tools that is very mobile thanks to its compact and design-oriented textile folding pouch, and offers solutions for the most common screwdriving situations when working with bicycles. The sturdy pouch contains the bit ratchet Zyklop Mini 1 and 10 bits with all the benefits of Wera-Bit technology, specially adapted to the most common screw connections on a bicycle. With the glass fibre reinforced plastic tyre levers, the tyres can be safely levered off the rim without damaging the rim.

The tool set to go

The Bicycle Set 1 contains tools for the most popular screw profiles on road bikes, mountain bikes and e-bikes. Thanks to the compact textile-folding pouch, the set is also the ideal companion for cycling tours.

Rapid screwdriving

High working speeds can be attained with the Zyklop Mini bit ratchet. The thumb wheel is important, enabling more rapid screwdriving, and the lever of the Zyklop Mini only needs to be used for the final tightening of the screw.

The Zyklop Mini

The fine tooth mechanism, with its 60 teeth, allows a small return angle of only 6° - ideal for precision work.

Simple direction change

Simple switching between left/right operations.

Slim design

Its slim design makes it ideal for all particularly confined working situations.

Safely lever the tyres off of the rim

With the glass fibre reinforced plastic tyre jacks, the tyres can be safely levered off the rim without damaging the rim. Lift off of the rim with one tyre jack, hook into a spoke and pull off the tyre with the second tyre jack. The two tyre jacks can be clicked together and are therefore not lost individually.

The tyre lever 9503

The tyre lever 9503 can be used as a valve ejector for Schläverand (French) valves and as a bleeder valve for car valves.

Bicycle set 1, 14 pieces

Set contents:

8001 A Bit Ratchet 1/4", 1/4" x 87 mm

1x 1/4" x 87 mm

3899/4/1 Universal holder, stainless steel, 1/4" x 100 mm

1x 1/4" x 100 mm

851/1 Z bits, PH 2 x 25 mm

05072072001

1x PH 2 x 25 mm

867/1 TORX® bits, TX 25 x 25 mm

05066488001

1x TX 25 x 25 mm

05066485001

1x TX 10 x 25 mm

840/1 Z bits, 2.5 x 25 mm

05056310001

1x 2.5 x 25 mm

05056305001

1x 2 x 25 mm

05056315001

1x 3 x 25 mm

05056320001

1x 4 x 25 mm

05056325001

1x 5 x 25 mm

05056330001
