MATERIALS

BE PREPARED FOR THE EXPECTED

At CamelBak, we expect our gear to be used under punishing conditions. It's one reason why we look to continuously improve the performance of our products. The starting point for a great pack is great materials.

500 DENIER DOUBLE-RIP WEAVE CORDURA® FABRIC

CAMELBAK HAS WORKED WITH ITS SUPPLIERS TO DEVELOP CORDURA 500D DOUBLE-RIP FABRIC, AN INNOVATIVE CUSTOM WEAVE WITH STRENGTH AND DURABILITY THAT OTHER PACKS CAN'T MATCH. LOOK FOR THE DISTINCTIVE DOUBLE-BOX PATTERN ON OUR FABRIC AND YOU'LL KNOW, WHATEVER YOUR MISSION DISHES OUT, CAMELBAK PRODUCTS CAN TAKE IT.

- 70% IMPROVEMENT IN TEAR RESISTANCE OVER PLAIN WEAVE
- 46% IMPROVEMENT IN TENSILE STRENGTH OVER PLAIN WEAVE

PACK MATERIAL

MOUNTAIN™ LASER MOLLE

EVERYONE HAS THEIR FAVORITE POUCHES. THREADING THEM ON YOUR PACK'S MOLLE KEEPS THEM HANDY WHEN YOU NEED THAT CRITICAL PIECE OF GEAR. BUT EVERYONE AGREES THAT THREADING THEM ON IS A PAIN. THAT'S WHY WE DEVELOPED OUR LASER-CUT MOUNTAIN™ MOLLE. A LITTLE EXTRA ROOM AT THE TOP AND BOTTOM OF THE THREAD POINTS MAKES IT EASIER TO GET THOSE POUCHES ON.

- LOW PROFILE
- LIGHTER THAN TRADITIONAL WEBBING MOLLE
- SECURE ATTACHMENT WITH >100LB OF TEAR RESISTANCE
