

CLEANING WIPES

for demanding applications

Both of Etra's cleaning wipes are designed for the quick and effective removal of ink, adhesives, sealants, oils, paints and greases from hands, tools and hard surfaces. Convenient for use in locations where water is not available.

APPLICATIONS

Hands, tools, and various surfaces in the car, at home and in the workshop. Dissolves fresh and uncured adhesives and sealant residues (silicone, MS polymer, acrylic) as well as fresh PU foam, paint, etc. Also effective for cleaning oils and greases.

INSTRUCTIONS FOR USE

Remove a wipe from the package and reseal the package immediately. Wipe the stain until it disappears, then polish the surface with a dry wipe.

WARNING

May cause discoloration on porous surfaces. Test on an inconspicuous area before use.

STORAGE

Store in a cool, dry place. Recommended temperature: +5 °C – +25 °C. After opening, close tightly and use quickly.

HEALTH AND SAFETY RECOMMENDATIONS

Follow standard industrial hygiene practices. See the packaging and safety data sheet for further information.

COMPOSITION

Pre-saturated cleaning wipes. White non-woven wipes (10340009406) and reddish coarse double-sided wipes (10340010418).
